

Photos & Description April Walks

Bishop Waltham 11th April

We visited Sand Boils early in the walk, this is major spring that feeds River Hamble

The walk then became a little more adventurous as recent rains had forced us to climb round flooded Byway, with lots of caution we all managed the little extra adventure. We then enjoyed a little lunch at the Hampshire Bowman and almost got back to start before the afternoon rain arrived.

13th April: Spring Flowers Short Walk Hamble County Park

Although Bluebells are not quite at their best, we saw a wide range of spring flowers, and everyone managed well on the paths that are very muddy after all the recent rain. We followed walk with lunch and a chat at 'The Barn'. Rain also managed to hold off until just after we finished.
